

Potential Project: El Espinal School and Clinic

El Espinal School is located the municipality of Pespire, which is located in the southern region of Honduras. El Espinal School began building an additional schoolroom, but due to lack of funding, the project could not be completed. There is still a significant amount of work to be done in the school, and they have requested our help in finishing the project. In addition, the school needs to be painted and the screen windows need to be repaired.

The medical clinic was renovated by Central American Relief Efforts but still needs a fence to be built around it for protection. This project would consist of digging the foundation for the fence, laying the blocks, and wrapping the wire fence.

Approximate costs: School room: \$2,000 Clinic fence: \$1,450

In order to complete this project, the group will have to raise the necessary funds.
