

Potential Project: Rio Chiquitas School and San Juan Bosco Clinic

Rio Chiquitas School – Day 1 and Day 2

The Rio Chiquitas School is a small school in a community called Pespire in the southern region of Honduras. This school has asked us to help them by painting their school and by repairing the bathrooms. In addition to repairing the bathrooms, the students need fluoride treatment for their teeth and eye screenings to check their vision.

San Juan Bosco Clinic – Day 3 and Day 4

The San Juan Bosco Clinic is located in a remote village in Pespire which is located in the southern region of Honduras. The medical clinic needs to be repaired and painted on the exterior and interior. Repairs will include installing new doors, taking out and replacing existing ceiling tiles that are corroded, and replacing ceiling tiles that are currently missing. In addition, new shelves and furniture are greatly needed.
